	own) • Library Management System • Hospital Management System • Inventory Management System • Banking System • Hotel Reservation System • Student Attendance System • Payroll Management System • Supermarket Billing System • Clinic Appointment System • Vehicle Rental System (Students are encouraged to propose creative and unique systems.) 📌 **PART 2 – Development Requirements** The project must include: 1 **Login Module** • Username & Password validation from database • Proper authentication 2 **MDI Parent Form** Must contain: • MenuStrip • ToolStrip (optional) • Status bar (optional) • Open child forms inside MDI container 3 **Minimum 3 Functional Modules (Child Forms)** Each module must: • Insert data • Update data • Delete data • Search / View data • Display records in DataGridView 4 **Database Requirements** • Minimum 4 tables • Proper Primary Keys • Relationships where applicable • Use Parameterized Queries 5 **ADO.NET Requirements** • SqlConnection • SqlCommand • ExecuteNonQuery • ExecuteReader / DataAdapter • Exception Handling (Try-Catch-Finally) • Proper opening & closing of connection 📌 **PART 3 – Submission Requirements** Students must submit: 1 **Source Code** • Complete VB.NET project folder 2 **Screenshots (All the main forms/parts)** • Login Form				

Q.No	Questions	Marks	CO	BL	PI
	• MDI Parent Form • Each Module Form • Database Tables • Data Insertion Output • Execution Result 3 **Implementation Report (PDF)** Must include: • Project Title • Objective • System Description • Software & Hardware Requirements • Database Design (Table Structure) • ER Diagram • Form Design Explanation • Key Code Snippets • Screenshots • Conclusion 4 **Live Demonstration & Viva** Students must: • Run the project • Perform CRUD operations • Show login validation • Explain code logic 📊 **Evaluation Scheme (Total: 50 Marks)** **Component** — **Marks** Project Proposal & Topic Approval — 5 Database Design & Structure — 5 MDI Implementation — 5 CRUD Functionality — 10 Proper Use of ADO.NET — 5 UI Design & Usability — 5 Exception Handling — 3 Documentation & Screenshots — 5 Execution & Demonstration and Presentation — 5 Viva Voce — 2 **Total** — **50 Marks**				

CO1: Comprehension of the .NET Framework and Development Environment

CO2: Proficiency in Working with Variables, Data Types, and Scope

CO3: Expertise in Operators, Control Structures, and Function Handling

CO4: Capability to Build Windows Forms and Handle GUI Controls

CO5: Proficiency in ADO.NET and Database Integration
